RE: Temp. Reso. No. 6978, supporting the Broward Metropolitan Planning Organization's 2045 Metropolitan Transportation Plan Cost Feasible Project for Southwest 148th Avenue

RECOMMENDATION: The City Manager recommends approval of Temp. Reso. No. 6978, supporting the Broward Metropolitan Planning Organization's ("MPO") 2045 Metropolitan Transportation Plan cost feasible project for Southwest 148th Avenue (the "Project").

ISSUE: The Broward MPO has requested that the City adopt a Resolution of support for the proposed Project.

BACKGROUND: In December 2017, the MPO began the process of updating its long term transportation plan known as the Commitment 2045 Metropolitan Transportation Plan (MTP; formerly the Long Range Transportation Plan). The MTP has been developed through coordinating committees and the MPO board, and includes projected future revenues from funding sources for allocation to projects. Through that process, a "cost feasible" group of projects was identified, which was approved by the MPO Board on May 9, 2019. The following proposed Project is included in the cost feasible group:

Location	From	To	Improvement
Southwest 148 th Avenue	Bass Creek Road	Miramar Parkway	widen to 4 lanes; bike lanes; sidewalks; lighting; landscaping; hardscape and irrigation systems

Before moving forward with the future programming of this project, the City must provide support through a City Resolution. The Project will be funded by the MPO and design/construction management will be provided by the Florida Department of Transportation. The Project's timeline for implementation is between 2036 and 2045.

COMPREHENSIVE PLAN ELEMENT: The proposed project is consistent with the following sections of the Transportation Element:

Coordinate Transportation Plans and Programs

Objective 2

The City of Miramar shall coordinate the transportation system with other entities, transportation plans and programs.

Convenience

Policy 5.5.1.

Through its membership in the MPO, continue to maintain and improve the bikeways/pedestrian ways network through inclusion of bikeways and pedestrian ways in road construction projects and through greenways.
