RE: Temp. Reso. No. 7013, adoption of the Fiscal Year 2020 Schedule of Proposed Fee Changes for Programs, Facilities, and Services

RECOMMENDATION: The City Manager recommends approval of Temp. Reso. No. 7013, adopting the Schedule of Proposed Fee Changes for Programs, Facilities, and Services (formerly known as the Fee Booklet) for Fiscal Year 2020 and approving the proposed new fees and amendment to certain existing fees set forth therein.

ISSUE: Pursuant to City Ordinance No. 14-16, City Commission approval by Resolution is required for the adoption of new fees and for amendment to existing fees for City services.

BACKGROUND: On July 2, 2014, the City Commission adopted Ordinance No. 14-16, authorizing the adoption of a Fee Booklet to serve as a comprehensive listing of all user fees, rates and charges for the numerous services provided by and throughout the City, and providing for amendments to said fees to be made by resolution during the annual budget process.

On September 17, 2018, the City Commission also adopted Resolution No. 18-179, adopting a Schedule of Fees and approving new fees and amendments to existing fees for Fiscal Year 2019.

During the Fiscal Year 2020 budget process, various rates and charges for City services were reviewed to ensure that they are competitive and help defray the cost of providing the services. The proposed new fees and amendments to existing fees are set forth in the "Proposed FY 2020" column of the attached Exhibit A. The additional revenue generated by these fees has been included in the Fiscal Year 2020 budget.

The City of Miramar may agree to receive and treat wastes from industrial users which may contain non-toxic constituents with concentrations in excess of those concentrations set forth as domestic, as specified in Section 21-1.02 (c) of the City of Miramar Sewer Use Ordinance. These constituents are Biological Oxygen Demand (BOD), Total Suspended Solids (TSS), Total Phosphorus (TP), and Oil and Grease (O&G). The following surcharge rates shall apply accordingly:	
Daily Max Value	

XIV. UTILITIES DEPARTMENT

BOD	concentrations in excess of	500 mg/l	at 0.15/lb
TSS	concentrations in excess of	600 mg/l	at 0.15/lb
TP	concentrations in excess of	45 mg/l	at 0.30/lb
O&G	concentrations in excess of	200 mg/l	at 0.30/lb

Automatic annual rate adjustment. The city will institute annually, effective with bills rendered on and after October 1, 2008, and each year thereafter an automatic increase to the monthly service availability charges and volumetric rates as contained in section 21-223(b), to be applied to such rates which are in effect immediately prior to the effective date of each annual increase. The annual index adjustment shall be one (1) percent, to the monthly service availability charges and volumetric rates for the eastern service area. With respect to the wastewater treatment service from the City of Hollywood and others, on behalf of the eastern city area, any increase or decrease in the cost of such purchases to the city shall result in an automatic adjustment to such applicable rates as identified in section 21-223(b), and shall be a pass-through to the consumer equal to the dollar amount of such increase or decrease in such costs as billed by the City of Hollywood or others as determined by the city. All other adjustments in excess of those identified above will be changed by a resolution as adopted by the City Commission.
